TURN IN FIVE STEPS

1. **Read the top bar.** The next crisis, how soon, and the area it tests.
2. **Check your mind.** Under the small map: each ▲ node under pressure and the card that helps.
3. **Pick a card, hover, read the preview.** Push, where the node ends up, chance to fail.
4. **Click to commit.** Up to 3 moves; budget and moves are bottom right.
5. **END TURN.** Watch Red's numbered moves, then read the week in review.

First week. Plant Stories on their News Media (an entry point in NOTICE), then Frame the Story on it, then a Watch Team on your own Social Media.

Hovering a node with a card picked: the push (+45), where it lands (Olvana 55), the reasons and the odds.

Top: points, next crisis, health. Left: Their edge on you. Right: the other mind and your areas. Bottom: the log, timeline, budget, cards, END TURN.

CARDS, MAP AND SCORING

KEY	CARD	COST	WHAT IT DOES	BEST IN
1	**Plant Stories**	2	Your strongest attack; stronger still on an entry point.	NOTICE
2	**Frame the Story**	2	Lighter attack; for two weeks the node cannot recover and attacks on it land harder.	INTERPRET
3	**Bot Swarm**	3	Hits the node and spills onto every node linked to it.	ACT
4	**Repost & Rebrand**	2	Light attack that tears down their Watch Teams and Prebunks there.	Any
5	**Watch Team**	2	Guards a node and its links for 3 weeks: enemy posts reach few people and fail more; your statements land harder.	Any
6	**Prebunk**	2	Warns a node and its links for 3 weeks: enemy attacks there do much less.	Any
7	**Official Statement**	2	Wins one node back. Strong while your TRUST holds, weak once it falls.	Any
8	**Lessons Learned**	3	No target: reinforces your whole mind and makes it recover faster for good (up to 3 times).	Whole mind

MAP SYMBOLS

Cyan node. Leans Blue. Brighter means stronger.

Red node. Leans Red.

Gauge ring. Fills clockwise from the top with how firmly the node is held, in the colour of the side it leans to: a full ring is 100. A contested node (under 30) has a dashed amber track.

Status icons under a node. Eye: watched (attacks land weaker, your statements hit harder). Shield: prebunked (incoming pushes count half). Lines: framed (it will not recover for a while). Hover the node for the details.

Sand rings and lines. One Watch Team or Prebunk covering a node and its links, tagged with weeks left. Pick the card and hover a node to preview what it would cover.

Large node. Top Leadership, the core of the brain.

▲ on your brain. Under pressure. Defend it soon.
